Before the debate began the audience joined in singing old-time religious hymns. After that the modernists had their inning with an organist playing selections, including works by Victor Herbert and Russian composers.

Dr. Straton was the first in reluding works by Victor Herbert and Russian composers.

Dr. Straton was the first in reducting the followed in the steps of the skeptics and critics of the Bible. He said if the Bible can be destroyed at one point, then it can be destroyed at all points. He asserted that if one verse could be eliminated as not the infallible word of God, then Mr. Potter had the right to tear out the Ten Commandments and follow his own desires.

He contended that America needs an established authority to save her from going the way Russian to undermined of the United although a marred to the committee side although a fairney of the world, he concluded, must bow to the will of God Almighty, else there is no hope.

Dr. Potter, in his rebuttal, agreed with Dr. Straton that the Bible was a "living book," and declared that he and all of the modernists obtained great inspiration from it. He said he could find authority in the Bible for everything the German , Kaiser did in Belgium.

Aimed at Protection

His further charge that the re-erves had been "dishonestly ad-ninistered by the Bureau of Fish-ries" and that the bureau had eries" and that the bureau had practiced "victous discrimination to the detriment of the public" drew a statement tonight from Henry O'Malley, commissioner of fisheries, in which he challenged the "scurrilous statements" which he said were contained in the resolution. The commissioner declared, however, he would welcome the proposed investigation if it would result in legislation, urged for three years, to "save the fisheries from further destruction, whether by trusts or independents."

commissioner O'Malley declared in his statement that if Mr. Sutherland's charges were "intended to delay badly needed legislation—as previously—it will be costly enough to the American people." "Public hearings during the past summer in Alaska," the commissioner said, "disclosed the fact that the reservation policy is supported by the people of the reservation region, canners, fishermen and public alike, as having already accomplished much. Morgover, the administration of the reservations has been approved in independent investigations on the ground last summer by important members of the Senate and House together with the Governor of Alaska.

OUT TO PROTECT FISH "The department has no authority over canning processes. Its authority extends solely to protection of live fish. There is always a conflict between those who desire to conserve our national resources and those who, like Delegate Sutherland, apparently believe in un-

the salvation of Germany, and were it verted by any camoufage attack its this."

Mr. Sutherland called attention in his resolution to grand juryctions at Valdez and Ketchikan, klaska, which, he said, "had contemned the practices of manyoncerns engaged in catching and anning salmon in the territory of claska." He also referred to a contemnemorial of the Alaskan agislature which he quoted as irging the 'immediate abolishment of the reservations' and the plactory of fisheries control in the legislature. Another memorial by the Legislature he said, had ondemned the creation of fish reserves in Alaska by Presidential working the legislature which the grid the salvarians indorse the orthodox objections of the putsch leaders against the Versailles Treaty, the "Kriegschuldluege," which means lies regarding the responsibility for the war, against the Welmar constitution and against the government leaders Dictator Von Kahr and Premier Von Knilling.

## FAILS AT END

WASHINGTON, Dec. 20.—Administration of the Alaskan fish
reserves by a committee of five ministration of the Alaskan fish reserves by a committee of five inembers of the House to be appointed by Speaker Gillett was asked in a resolution introduced today by Delegate Sutherland of Alaska. Charging that the reserves had been "dishonestly administered by the Bureau of Fisheries," Mr. Sutherland proposed in his resolution that the committee "investigate and report relative to any monopolization" of the fishing industry in Alaska.

In presenting the resolution, Mr. Sutherland repeated charges he made last spring when the salmon roserves were created by President Harding, declaring that the action was "conceived for the purpose of abolishing the common rights of fishery in Alaska and of turning the fishing grounds of that territory over to a few favored corporations."

As the dispatches received here from the United States indicate that action by the Federal authorities had been held in abeyance pending the outcome of the search-at-sea regulations under discussion by the American and British governments, it was made clear today by British officials that no hitch had occurred in the exchange of views between London and Washington, and that early completion of the proposed treaty exceptions.

The La Follette bloc is out to repeal the so-called guaranty clause of that statute. The regions from which the members of that bloc come have been convinced or profess to believe that this clause in the Transportation Act is responsible for high freight rates on agricultural products. Senator Brookhart and others have led their constituents to the conviction that this clause gives the railroads a government guaranty that they shall earn 6 per cent on their valuation.

COOLIDGE ACTS

Now, having taught their people this fallacy they want to satisfy those constituents by repealing the provisions. President Coolidge dealt with the subject in his message, pointing out that "it has been erroneously assumed that the act undertakes to guarantee railroad earnings" and explaining the actual provisions. The facts, however, are not considered by the La Follette bloc germane to their present political efforts.

The bloc wants to establish its leader, Senator La Follette, who now ranks second to Senator Cummins in seniority on the Interestate Commerce Committee, in order to advance their cause of repealing the so-called guaranty clause, and to secure other radical railroad legislation.

was far from being a bunch of bushers.

"Big' Bill Vickory and Mac' McGinnis, Iormerly of the Chicago Cubs, under Anson; Elt Chamberlain of the Cincinnati Reds, when "Bid" McPhee and other stars were on that team, a little left-hander by the name of 'Toots' Barrett, and 'Bill' Carrick made up the pitching staff. Three ex-major leaguers and two bushers.

"The infield was made up of Al Wagner at short, Claude Ritchie at second. The outfield was made up of Joe Rickert, left field; your humble servant, middle field, and Jim Cooper, right.

"Harry Smith was the man who did all the catching. While the first baseman was manager of the team, I cannot recell his last name.

"The interesting thing about this team is that it gave to the major-league more players than any one minor-league team in the entire country of that class.

team in the entire country of that class.

"There was Hans Wagner, first of all. Everyone knows his history. Al Wagner, his bistory. Al Wagner, Claude Ritchie to Pittsburg, Claude Ritchie history in the minor lesigue, however, before going up.

"Jack Rowe, manager of the Hanfafe International League team, looked this bunch over when he was the search for material. Strange to say, he could not see Haus Wagner. so he took Ritchie and Harry Smith. Not a bad choice at that. Harry Smith was one of the game's greatest catchers, while Claude Ritchie was the greatest second baseman of his day, not excepting 'Jawn' Evers.

"Vickory, Chamberlain and McGinnis dropped out of the game after the season of 1895, the year the Warren team cleaned up everything in the league. Hans Wagner may have been drawing something like \$40 a month, I don't know what his salary was, but I do know that the oil magnates owning this team paid some princely salaries only for the joy of watching the team beat Oil City and Franklin.

"If you can use this information along with your Wagner history, all well and good. If not, throw it in the waste basket.

NUMBER OF HOT GAMES SCHEDULED

Soapsters Will Tackle Anaheim; Saturday League Leaders Clash

A number of hot games have been scheduled for this week by Jimmy Cleary, Secretary of the Greater Southern California Basewill be given a baseball treat for

BY BYSTANDER Christmas. The White King Soaps, who recently downed the Union Pacific All-Stars in both games of a two-game series, will tackle the Anaheim squad in one of the

feature tilts on the Anaheim diamond. Elmer Meyers, Salt Lake hurler, will pitch for the Soapsters while Cliff Best, property of the Boston Red Sox. Will be on the mound for Anaheim.

The two leading Saturday League clubs, the 220 K. V. Edisons of El Monte and the Vernon Wizards, will clash in one of tomorrows best games at Maler Park. The Edison outfit is one of the fastest teams in the south and is unbeaten in the league so far.

Other classy tilts on for Sunday are the Barry's Classy Hats-Colton Centrals game at Colton, the Hill A. C.-Glendora tussle, the Hollywood-El Monte game and the Pasadena Eagles-Montebello Merchants struggle.

The Hill Athletic Club nine has won its last five games, due

Vernon Tuesday night has been named as a substitute for the mystery middleweight.

Those who saw Manley perform against George were impressed with his showing. A hard puncher with both hands, he is sure to give Colima a tough scrap.

Colima in his last appearance at Vernon put up a rather mediocre showing and since has been the subject of more than a little criticism. He is out to stop Manley tonight in an effort to regain his lost prestige, and it's a safe bet he will put up a real battle.

Johnny Reisier and Lee Moore get together in the semi-wind-up and promise to unfurl a scrap which will rival the main event. Reisier has been a big favorite at Hollywood in all of his starts there.

The fans like his aggressive style. Those who witnessed the great fight staged by Moore against Jimes the staged will turn out tonight en masse to see him perform once more.

PASADENA HAS FAST FIVE

With three letter men back and a new coach, Pasadena High promises to put a strong five in the running for the Coast League basketball race this season. Coach "Pinky" Griffith, who has coached the Bulldog hoopsters for a good many years, has relinquished all coaching duties at Pasadena, so E. J. Laurenson, a former Illinois cage star, will be in charge of the Bulldog basketball hopes this season.

Louis Vincenti, Eddie Collins and Clark are the letter men back and around this trio Laurenson is building up a formidable outfit.

Vincenti and Collins are a couple of silck forwards and work well with Clark at center. Others out for forward positions are Graves and Mittens, while Reynolds is giving Clark a battle for the center berth.

At guard "Red" Hunt, a floor light weight team last year, Ward, Ashley and Montgomery are battling it out and Laurenson should get a capable pair out of the quartet. Pasadena has played and defeated Caltech, South Pasadena and Chaffey Union in practice is building up a formidable outfit.

## HANS WAGNER'S STORY

[Copyright, 1923, in U. S. and Great Britain, Cuba, Japan and South America by North American Newspaper Alliance Hans Wagner's name appears on every All-American all-star baseball team for all time, and what the old-time star doesn't know about baseball doesn't a mount to much. In this, the story of his career told by himself, he tells you what he knows—the skill of men and teams and plays, the development of the American game, all the ins and outs that the baseball fan of today wants to know about. He gives pointers to the youngster and the college player and he tells the old hand where he can look for new delights by watching for fine points that most of us overlook. Hans Wagner's story is more than this, however; to it he has brought his sound philosophy and knowledge of men, so that the diamond, as he talks of it, becomes as broad as the whole world. And with a simplicity that makes absorbing reading, he has accomplished what many skilled writers fail to achieve; he has given a living, full-length portrait of a man—himself.

### TELLS HOW Coso Volcanic Iron Water and Mineral Mud Packs

Relieved His Rheumatism and Stomach Trouble Making His Triumphant Return to the Arena a Reality

After an absence of several months from the ring, as a result of stomach trouble and inflammation of the sciatic nerve, I am now back on the job in better physical condition than at any time of my career, thanks to the Volcanic Products from Coso Hot Springs. Specialists all over America had failed to alleviate my trouble and I had about given up when my manager, Edwin Hitchcocks and Chief Nick Harris made a tour of inspection to Coso Springs and returned with the information that it would not be necessary for me to go to the Springs but these wonder waters and clays could be used in my own home. The water has relieved my stomach and put fron in my blood, while the clay packs thoroughly relieved my sciatica. I number my friends in Los Angeles by the thousands, and all are amased when they see my perfect condition.

(Signed) HENRY MALCOR.

If you suffer from Stomach Trouble, Rheumatism or High Blood Pressure and have failed elsewhere, Coso's Volcanic Products will relieve you. Order a case of Red Iron Water today for \$16.00 and month's treatment of Volcanic Clay Packs for \$10.00. Single bottles of water \$1.25, and single jars of clay \$3.00 each. ### THE CHASE NATIONAL BANK OF THE CITY OF NEW YORK, TRUSTEE.

For information regarding the Warner Sugar Corporation and the proposed issue of First and Refunding Mortgage Bonds, we refer to a letter from Mr. Grove E. Warner, Vice President of the Warner Sugar Refining Company, dated December 20, 1923, which he has briefly summarized as follows:

BUSINESS of Warner Sugar Corporation will be organized to acquire the assets and business of Warner Sugar Refining Company, which operates at Edgewater, N. J., one of the largest single sugar refineries on the Atlantic Seaboard; and Warner Sugar Company of Cuba (Miranda Sugar Company) an important self-contained producer of raw sugar, owning the Central Miranda in the Province of Oriente, Cuba.

SECURITY: The Bonds will be secured, in opinion of counsel, by (a) a direct First Mortgage Lien on all the fixed assets now owned by Warner Sugar Company of Cuba and certain adjacent acreage. These properties, including cane plantings valued at \$1,515,000, were appraised in February, 1923, by Smith & Ames, Consulting Engineers, at approximately \$14,000,000.

at approximately \$14,000,000.

(b) a direct Mortgage Lien on the fixed properties now owned by the Warner Sugar Refining Company and on the entire capital stock of the New Hampshire Stave and Heading Mill, subject to \$5,550,000 First Mortgage 7% Bonds due December 1, 1941, (closed issue) and \$350,000 purchase money obligations.

The fixed properties of the Refining Company, including equipment and its investment in the New Hampshire Stave & Heading Mill, as of November 3, 1923, are carried on the books at \$14,853,507, the valuation of such properties of the former Company being based on an independent appraisal made in November, 1921, plus subsequent additions. Provision is to be made in the mortgage for refunding all prior liens of Warner Sugar Refining Company.

PURPOSE: Proceeds of present issue are to be used to retire current indebtedness created for capital expenditures on the Cuban properties and to provide additional working

ASSETS: Combined balance sheet prepared by Price, Waterhouse & Co. from the November 3, 1923, statement of the Refining Company and the October 31, 1923, statement of the Cuban Company, after giving effect to the consolidation of both Companies and to present financing, shows, after deducting all liabilities except the First Mortgage Bonds of the Refining Company and the new issue of Bonds, total net assets aggregating \$40,-142,248 or 3.47 times the principal amount of Mortgage Bonds to be presently out-

EARNINGS: Combined net earnings, after depreciation, available for interest and Federal Taxes as compiled by Price, Waterhouse & Co. for the 434 years ended June 30, 1923, for the Cuban Company, and for approximately 4 5-6 years to November 3, 1923, for the Refining Company, aggregated \$14,951,875 which if averaged as five years is at the annual rate of \$2,990,375.

the annual rate of \$2,990,375.

For the current year, being 12 months to June 30, 1923, for the Cuban Company, and approximately 10 months to November 3, 1923, for the Refining Company, the combined net earnings similarly computed were \$3,370,470. Combined annual interest charges on the First & Refunding Bonds and the underlying Bonds are \$835,500.

The average annual net earnings of the Cuban properties alone, included in the five-year average above are \$1,589,648. The annual interest charges on these \$6,000,000 Ronds are \$420,000.

SINKING FUND payable semi-annually com "July 1 1924, sufficient to retire 5% of Series "A" Bonds annually. If additional Series "A" Bonds are issued sinking fund payments shall be increased to provide for retirement by maturity of 75% of maximum amount of Series "A" Bonds issued.

It is expected that application will be made in due course to list these Bonds on the New York Stock Exchange.

Interim Receipts or Temporary Bonds may be delivered in the first instance. All of-ferings are made subject to the approval of proceedings by our counsel and "when, as and if issued" and received by us.

The legal proceedings in connection with the Issue will be passed upon by Messrs. Russmore, Bisbee & Stern and Messrs. Kellogg, Emery, Inness-Brown & Cuthell. Price 961 and Accrued Interest

## MORTGAGE GUARANTEE COMPANY

### The Ideal Investment For Newcomers

D EOPLE who bring funds and securities to California which they wish to convert into a thoroughly sound form of investment of satisctory yield, and tax-free in this State, frequently find it difficult to make a selection from the multitude of securities offered.

Many of these people have solved their investment problems through the purchase of Guaranteed First Mortgage Certificates of the Mortgage Guarantee Company. These Certificates are secured by a group of diversified first mortgages, none of which exceed 50% of the conservative appraisal values of the pledged properties. They are also unconditionally guaranteed as to both principal and interest by the Mortgage Guarantee Company, a State-supervised institution with resources of more than \$25,000,000.

These Guaranteed First Mortgage Certifi-cates are regularly purchased by banks, insur-ance companies, trust estates, and experienced individual investors, and recognized as one of the most fundamentally sound investments ob-tainable. They are issued in denominations of \$100 and multiples thereof, and mature in two

### LOS ANGELES EXCHANGE STOCKS AND BONDS

 IN SAN FRANCISCO United Oil and Globe Petroleum ere rivals for speculative favor in the oil group yesterday on the Los Angeles Stock Exchange, both Les Angeles Stock Exchange, both stocks changing hands in considerable volume, and recording moderate advances. The mining group was characterized by the weakness in United Eastern.

Is response to the declaration of the regular quarterly dividend of 3 per cent on the increased capitalization, United Oil attracted considerable attention. Opening at 24 3-4, the stocks climbed 7-8 of a point to a final price of 25 1-4. Globe Petroleum pushed forward 21/2 cents to 16 1/2, and Standard Oil of California advanced 1/2 point to 61 7-8. An unchanged condition resulted from the trading in Union Oil. Associates, the stock finishing 51 3-4. Union of California finishing 51 3-4.

## American Furniture Mart Building Corporation (Chicago)

First (Closed) Mortgage 61/2% Sinking Fund Gold Bonds

Dated December 1, 1923

Due December 1, 1947

Callable on sixty days notice as a whole or in part by lot at 105 and interest for the first ten years, at 103 and terest for the next five years and at  $\frac{1}{2}$  of 1 per cent less for each succeeding year until maturity. Interest payable without deduction for normal federal income taxes not in excess of 2 per cent. The company agrees to relate upon timely application as provided in the mortgage, the Pennsylvania and Connecticut taxes not in excess four and one-half mills per annum and the Marchaelts income tax on the interest not in excess of 6 per cent per annum.

The following information is summarized for us by General W. J. Nicholson, President of the Corporati

SECURITY: These bonds are secured, in the epinion of counsel, by a first closed mortgage upon the American Furniture Mart building located at 666 Lakeshore Drive, Huron and Erie streets and McClurg Court, upon which the building is being erected. This location is within three blocks of North Michigan Ave., the center of the new business and hotel district of Chicago, is in close proximity to the loop and retail districts and is afforded splen-did transportation facilities. The land above described has been appraised by leading real estate experts of Chicago at \$1,709,000 and independent contractors have appraised the building at approximately \$8,300,000, making the total value of the property \$10,009,000.

THE BUILDING: The American Furniture Mart building was planned in response to a demand from both manufacturers and retailers of furniture for a central and adequate structure for permanent exhibitions of furniture and for the semi-annual markets for the sale of furniture by manufacturers to retailers. The American Furni-ture Mart building, which will be the largest in the world, will be a sixteen-story and basement structure of modern fireproof

construction and will contain approly 20,000,000 cubic feet and 1,500,000 square feet of floor space. The building which now is more than 50 per cent completed is expected to be ready for occupancy in May, 1924.

EARNINGS: Gross earnings of the build-ing when fully leased are estimated at \$1,500,000 and net available for interest at \$1,050,000 or over 3.2 times the maxi \$1,050,000 or over 3.2 times the maximum annual interest requirements of this issue of bonds and over twice the combined annual interest and sinking fund charges Leases, 92 per cent of which run for a period of ten years, providing for total annual rentals in excess of \$915,000, already have been signed, and additional leases of \$125,000 have been contracted for. The lessees who include the largest and most substantial firms in the furniture industry, represent 144 cities and 23 states. represent 144 cities and 23 states.

SINKING FUND: The indenture a this issue provides for a fixed sinking fund, beginning in 1926, sufficient to retire 80 per cent of this issue by maturity, and an additional sinking fund equivalent to one fourth of the net earnings as defined in the mortgage is expected to provide for the retirement of all bonds before maturity.

Appraisals of the land were made by Edwin J. Bowes, Jr. and Co. and Clark and Trainer, and of the McClennan Construction Company. The architects are Henry Raeder, Esq., George C. Nimmons and the Max Dunning, Esq. The contractors are Wells Brothers Construction Co. Audits have been made by Ma and Ernst. All legal matters pertaining to this issue are under the supervision of Messrs. Taylor, Miller and Smith for the bańkers and Messrs. Winston, Strawn and Shaw for the company. We offer these bon and if issued and received by us, subject to approval of counsel. Deliveries may be made in the forporary bonds or interim receipts of the Cleveland Trust Co., Trustee.

With such a recommendation for glass houses there seems to be nothing left to do but tear down the old and build the new. However, it might be well to defer stone throwing at least until the houses are erected.

FUR RAISING INCREASING
Important progress has been made in investigation pertaining to the resisting of wild fur-bearing animals in captivity. Fur farms are reported from 25 States where foxes, skunks, raccoons, minks, squirrels and beavers are raised. It is estimated that 500 ranchers are raising silver foxes in the United States, that they have between 12.000 and 15.000 foxes in captivity, and that the value of the investment is about \$8.000,000. The discovery of the fact that martems breed the last of July and in August has solved the problem which has herectofore prevented the successful raising of these animals in captivity and has opened up an important field to the fur farmer.

PERFORMERS REHEARSE

The early days of English jurisprudence, when trial by battle was the accepted method of settling disputed points, were recalled yesterday in Justice Baird's court where the question of whether green pumpkins are proper food for pigs was threshed out and Jim Coffield was held to answer on an assault charge.

It was testified that W. L. Green, the complaining witness, is foreman of a ranch north of town. About three weeks ago he came upon Coffield when the latter was feeding green pumpkins to the pigs.

"Don't you know better than that?" Green said to Coffield. "You'll make the pigs sick."

"Nothing makes a pig sick," Coffield replied, tossing another large hunk of unripe cornfield fruit to the hungry multitude. "Green pumpkins is good for pigs. See how they like 'em."

Then he tossed another hunk. One word led to another after that. The green pumpkin advocate, it was declared, at last won the argument by taking a shovel and trying to break it over the foreman's head.

But Justice Baird held Coffield's method was out of date and held him in \$5000 bail. The court had frequently to admonish the au-

"We are handling 136 carloads of express a day," he said. "In addition to our own transportation facilities, we are renting 180 motor trucks to take care of the Christmas rush. We also have employed 150 additional men for the holiday season."

The business of the express company is being taken care of efficiently through twenty offices. Six of these offices were established for the Christmas rush.

"All Christmas business is being handled on time," said Mr. Thompson. "Each night we have the day's business cleaned up. This is made possible by our increased facilities and through our new building at 546 San Pedro street."

For the benefit of those kiddles who haven't one of the buttons and who desire to come to the party there will be baskets of them available at the door of the hall. They cost but a smile.

And now to reiterate the arrangements for the festival:

Every person in Los Angeles between the ages of 4 and 22 years is invited to the party if he or she is already or desires to become a member of Aunt Dolly's Times Junior Club. Admission to the club is at all times free and news of the club and its activities may be found every Sunday in the Junior Times, a department of the Sunday issue.

The entertainment will be given at the Knights of Columbus Auditation.

Times, a department of the Sunday issue.

The entertainment will be given at the Knights of Columbus Auditorium, 612 South Flower street, starting at 11.30 a.m. Saturday morning, and continuing until 6 p.m. for the younger children. For high school pupils and older children another entertainment will start at 8 o'clock and continue until midnight.

One of the features of this entertainment will be a dancing contest with gold watches as prizes, and with Blanche Sweet, noted film star, and Aunt Dolly, to award them.

At the corners of Sixth and Seventh and Flower streets there will be stationed traffic officers, policemen and Times representatives to take care of children who are unaccompanied. The same efforts to assure the utmost in safety will apply to every detail of the enter-

paralysis.

Buil Montana and Joe Bonomo, star of Hunt Stromberg's new feature, "Breaking Into Society," and strong man for Universal, respectively, will try madly to outde each other in comical stunts, they aver.

Two new recruits to the army of joy makers volunteered their services yeaterday. One of them was Chaile McHugh, who lives at Hillside Terrace in La Crescenta, and whose characterizations of personages who appear in our daily comic strips have won him fame; the other was Neely Edwards, whose record as a film comedian is nationally known.

Anything that cramps the development of this city's industrial future at the harbor will react upon every community in Southern California.

It almost goes without saying that the harbor must be the seat and the life artery for these future industries. To tie up the country tributary to the harbor—particularly in this way of putting it on the shelf

CHEMICALLY PURE

The laboratory is making synthetic foods for cattle and hogs from wood pulp and a few chemicals and it is promised that in time we can have a race of laboratory for the harbor is limited in extent. No one knows what will be required of it.

The National Horseshoe Pitchers' Ascelation has become federated with the american Athletic Union. In this way tossing the shoe is ranged with rowing, wresiling, polo, swimming, running and other nuscular events. First thing we know the porting page and no athletic tourney will e complete without its knitters and hemitichers.

Let us continue to work together and do towork together and do teamwork.

Our country is doing very well. To the average American citizen the allegation that our chieftain is given to stand-stillism and willful wishing will carry the perfume of violets. Let us all have a try. Does Brother McAdoo purpose to replace stand-stillism with runawayism?

But an inrush of new settlers is not every thing. If they are to be permanent they danger spots. Their peril is due to their strategic military importance.

One of these is Afghanistan.

Every disturbance in this little half-civilitied, mountainous country is open to susbitions to become a prophet on the mysteries of life.

Future prosperity depends upon continu

The attempt of any city or community to pull away from that principle of "All For One and One For All" will be a fatal handcap to the future of all Southern California.

An annexation election is to be held in
Long Beach on December 28 at which time tunity to declare themselves either for or against the principle of teamwork that in the past has held all the communities of sible the enormous concerted effort that has astonished the world.

The annexation plan, in effect, is not actually to add much territory to Long Beach; rather it is an ingenious plan to make it impossible for any other city, at any time in the future, to annex a large territory tributary to the harbor. With a zeal quite to be understood on the

part of a young, growing and ambitious city it is proposed to annex a narrow rim of land completely surrounding a large area of farm lands. It is impossible, at the pres-ent time, to bring these farms into the city around them they never can become a part of any other city.

It is as though Long Beach were building

INJURED FEELINGS

I sas though Long Beach were building a fence around them. It is as though they were asserting future ownership to the chicken by a dog. The \$25 is for the actual damage and the \$10,000 is presumably for the indignity of being nipped by a rabbit hound.

It is as though Long Beach were building a fence around them. It is as though they were asserting future ownership to the chicken by writing their names on the egg.

The Times is convinced that the Long Beach voters will see that this ingenious trick will not, in the end, be the part of real vision or torsicht.

## TWO GIRLS AND A HOM

BY RANSOME SUTTON

Only thirty-four people out of every 100 living in Los Angeles are entirely happy, for only 34 per cent of the inhabitants own their homes. The percentage is a bit larger than in San Francisco, where 27 per cent own their homes; it is a lot larger than in New York, where 87 per cent of the inhabitants are renters. (The figures were compiled from the Federal census reports.)

In Southern California the most desirable homesites are going rapidly: like the hair on the human head, they will soon be gone. So the time to get a patch of ground upon which you may build your hoped-for bungalow, plant your littile garden, say "this is mine" and be happy is now. But how?

A BRAVE ADVENTURE

Two young women have shown us how. Their names are Dorothy Bassett and Anne Nash. They were teachers in the occupational department of Hahnemann Hospital, San Francisco, and they wanted a home in Carmel; so they gave up their jobs, went down to Carmel, picked out the lot they liked the best, bought it, built a home and have since been living in it. No one can tell the story better than Miss Bassett and the following statements are hers.

"Our adventure has proved to be even more successful than we had ever imagined and we should be glad if others might be encouraged to make a similar attempt. We got four lots from the Carmel Development Company for \$900. We got four lots from the Carmel Development Company for \$900. We got four lots from the Carmel Development Company for \$900. Got two more lots a year later for \$300 cach, paid \$50; septic tank materials, \$25; nanis and hardware, \$40—total, \$1045."

The \$60—labor cost—went to a broken-legged carpenter, who helped them raise the rafters and lay the shingles, besides advising them throughout the building of the house.

### NEW CHARTER TOPIC

Nathan Newby Explains Genera Provisions at Lancheon

The new charter for the city of Los Angeles, the drafting of which was recently completed by Board of Freeholders, was explained by Nathan Newby, mem-ber of the board and former presi-

ber of the board and former president of the City Club, at the weekly meeting of the Democratic Luncheon Club at the Alexandria Hotel yesterday.

The charter as it now stands and as it will be submitted for the approval of the people, is the result of an effort on the part of the board to embody such features of the organic laws of other cities as had been deemed advantageous, plus a number of others calculated to meet the special needs of this city, Mr. Newby said. The ed to meet the special needs of this city, Mr. Newby said. The form of government employing a city manager had been considered but rejected in favor of a continua-tion of the present system provid-ing for a Mayor and City Coun-eil.

among the outstanding changes Mr. Newby mentioned especially the removal of the Mayor from all commissions, the adoption of a budget system modeled after that of the Federal government and the establishment of a city purchasing department. He said it had also been decided to increase the salaries of various officials, among them those of the Mayor and City Attorney, each of whom will receive \$10,000 a year if the new charter is adopted. Preparations to carry more than 1,256,000 passengers on Monday, the final day of Christmas shopping, have been made by the Los Angeles Railway, officials announced yesterday. By working night and day, the shops have turned out twenty-eight new cars within the last fifteen days. The periodic overhauling of cars has been suspended so that the only ones held in the shops will be those that are disabled, and a maximum number will be available for service.

One thousand cars will operate Monday. A large part of the "rush-hour" cars will be continued in service all day.

The delay was held necessary to permit Judge Conkling of Imperial county, before whom Degnan was tried, to be present and to give Judge Shenk additional time in which to review the testimony in the case.

Degnan was found guilty on the two counts last Saturday after a dury had deliberated five hours on his fate.

More than one hundred kindly, talented and happy persons came to The Times' studio yesterday and last night, all with the purpose of giving their artistry to the vast audience of Radioland.

Throughout nine hours of broadcasting by KHJ, these artists from the standpoint of one day's work has probably never been equaled in quantity and quality in the annals of radio.

The first period opened at 10 o'clock, with a two-hour program by Dr. Hiner's Los Angeles Band.

To gain ideas in architecture and ensineering from the massive and intricate settings used in this production, a party of 200 architects visited the Pickford-Fairbanks studio and viewed the sets for this picture. They were members of the Architectural Club of Los Angeles and were in charge of C. R. Johnston. The purpose of the visit was to study motion-picture methods of construction and apply, if possible, many of the principles of design to practical building.

FORSAKES SCREEN CLARA KIMBALL YOUNG TO TRY STAGE AGAIN

By Grace Kingsley Clara Kimball Young is to return to the stage, as prophesied me months ago in this column She will appear first at the Curran in San Francisco, where her new play will be produced and will later be booked here at the Biltmore, according to present plans, as announced by Harry Garson. Harry Garson, Miss Young's manager, has just returned from New York where he purchased a new play by William Hurlburt

manager, has just returned from New York where he purchased a new play by William Hurburt, called "Trimmed In Scarlet." It is a society drama and will give Miss Young a great acting opportunity, it is said.

The actress will go north immediately after Christmas to start rehearsals and the cast who will appear is being recruited in this city, according to Mr. Garson, althought it is possible that one player may be brought from New York.

The play, if successful, is to be sent on tour, winding up in New York, marking Miss Young's first appearance on the New York stage in many seasons. Except for appearance at benefit performances, she has not played in the spoken drama for about nine years. Since then she has been starring in pictures, having retained consistent popularity ever since she took to the silent drama.

Miss Young's appearance on the stage recalls the fact that she formerly played in the stage companies directed by James Young, film director, then her husband, and at one time she and Mr. Young took a company to France and England, where they played successfully for several weeks.

The star is one of the most beautiful women of the stage and screen, and only recently a noted artist is reported to have asked to be allowed to paint her portrait.

Asked whether she felt at all nervous about a return to the spoken drama she answered:

"Why, naturally I feel a bit nervous about a return to the spoken drama she answered:

"Why, naturally I feel a bit nervous about my first appearance, but I hope soon to feel at home again. I really feel that I have gained much experience in pictures that will be valuable on the stage. One's pannomime gains and one's power of putting personality over is enhanced by work in the pictures. But, of course, I shall have to bet used again to the sound of my own voice on the stage. I do so hope to please the publie in my new play, which will give me great opportunity."

### Four Suspects Indicted After Attack on Girl

The story of how four youth The story of how four youths brutally attacked a 16-year-old girl while she and a chum were on a holly-picking trip on Mt. Washington, was told to the county grand jury yesterday by Anna Sleigh and resulted in an indictment against the youths accusing them of a statutory offense.

The men are Nick Casagranda, 18 years of age; Arthur Costello, 18; Joe Bauer, 16, and Gabriel Oller, 18. According to Miss Sleigh, who resides at 2705 Montecito Drive, she and Virginia Riley, 18, of 3827 Manitou avenue, scaled Mt. Washington the afternoon of

Drive, she and Virginia Riley, 18, of 3827 Manitou avenue, scaled Mt. Washington the afternoon of the 17th inst., in search of Christmas greenery. They first saw the youths riding in a delivery car, Miss Sleigh said, adding that at that time the men made advances to them. The girls then went back over the trail, when the youths sprang from the brush and selzed them, the girl continued.

Miss Riley managed to break away, Miss Sleigh said, and fied down the mountain in search of help. She encountered Charles, Freux of 1736 Woolman street, who returned to the scene with other men. In the meantime the girls attackers had disappeared and Miss Sleigh was found lying on the ground.

Ninety years of age and still go-

charges of a murderous assault on two postal clerks at the Arversary tomorrow.

Mr. Griffith, who lives at 5915 Eche street, Highland Park, came to Los Angeles twenty-five years see from Lawrence, Kaa. He bought a farm in what is now Highland Park and settled on it with his family. Besides being a good farmer, Mr. Griffith is a good banker. He established the Highland Park Bank, and the South Pasadena Bank years ago. Both institutions were bought a few years ago by the Security Trust and Savings Bank.

Indicating his rugged constitution, despite his years, Mr. Griffith recovered from serious injuries suffered a year ago when his automobile was struck by a train in Highland Park. Among other injuries he received his collar bone and lege were broken. He hobbled around on crutches for a time, but it was not long before he threw them away. He is still driving his own car.

OFFICIALS WERE PATRONS
Jake's place has long been a spot dear to city officialdom of Hamtramck. Weekly on Tuesday nights before and after Council meeting at least one City Father could be found resting his instep of Mike's comfortable bar rail.

It is only a step from the back door of police headquariers and daily Chief of Police Mark Berlinger and his men could be seen lifting their more than 200 pounds avoirdupois atop a stool at the lunch counter to partake of spare ribs and sauer kraut or corned beef ribs and sauer kraut or corned beef

ASPECT CHANGED

All the problems of the city and nations have been argued and solved by the crowd that frequents the bar-room. Until the arrival of the State police the bar felt the pressure of many elbows from morn till night and the cash register rang merrily. The crowd is still there, but the arguments are not as hot and the bar is deserted by all but some stranger disgustedly quading his glass of real nearbeer and pocketing the change from his quarter.

And outside is Mike with his Christmas trees arranged in orderly rows along his saloon and leasing against the City Hall waiting for a land-office business.

Visalia has been rescinded by the State Railway Commission. This action followed a brief action in San Francisco at which the Santa Fe asked permission to have the order abrogated.

The Santa Fe had planned to build the spur track into its new industrial area on South East street and Mineral King avenue, but later advised the commission, according to news stories, that the spur could not be used to profit at this time. Whether this means the company will not open up this industrial section is not known here, but the presumption is that no active steps to promote the district will be made at present.

SCHOOL IS STRIPPED Pupils of the Olive School District were overjoyed when they arrived at the schoolhouse for the day's studies and discovered that thieves had carried the entire equipment of the building away. There were no seats, nothing to work with, nothing, so the teacher dismissed them. The thieves had driven a truck to the rear entrance and removed everything. The matter was reported to the Sheriff's office here.

Negro Named in Asserted Purchase Program of Mate, Once Musician Here, She Says

Mrs. Helen La Maie, Long Beach with and mother, who charges that her husband Elsier La Male, well-known motion-picture promote in Texas and other parts of the Southwest, attempted to sell her for \$500,000 to a negro living in Juarez, declared yesterday in the first ful interview she has given since the filing of her divorce complaint, that she had never seen Lou Harris Baker, her asserted would-be buyer, and that she has never communicated with him in any way.

WILL DENY CHARGE

During the interview which was given at the office of Chandos E. Bush, her attorney, she admitted that she had received letters from Baker, but said that a letter purported to have been written by her husband or some one in his employ. Baker, she says first saw her at a motion-picture ball which she attended with her husband at a Los Angeles studio in 1918. The negro was employed as a musician at the ball, she declares.

The present whereabouts of the promoter at her cottage in Long Beach Wednesday, that a marriage between La Maie and Violet Hoyler of El Paso, was impossible, because the woman as well as La Maie was already married. It was learned yesterday La Maie had been served with divorce papers in Long Beach Wednesday and that he had assured Attorney Bush of his intention of fighting the charges.

The present whereabouts of the promoter is unknown.
